

This half term, our topic is Frozen Kingdoms! Here are some home learning activities to consolidate and extend our learning. Please choose **at least one activity** to complete over the holidays. Your project is due by **Friday 1st March 2024**.

Find out all about an animal that is threatened with extinction in the Arctic or Antarctic.

Create your own Arctic and Antarctic word search puzzles using all the new words you have learned during the project. Challenge a grown-up to solve it!

Imagine that Earth has entered another Ice Age. Write a diary or newspaper report describing the changes and how the human race has adapted to cope.

Use a range of snowy images to create a polar collage. Remember to use lots of interesting textures, shapes, colours and patterns.

Imagine a common domestic animal became an inhabitant of the Arctic or Antarctic. How would it have to adapt to survive there? Longer, thicker hair? What else? Rename your common animal with a more exciting 'polar' name!

Design a pair of snow boots for an Arctic explorer. What materials would you use? What features could they have? Let your imagination run wild!

Make a model of your favourite Arctic animal using clay, dough or recycled materials. Bring it into school and explain how you made it.

Find out what natural resources and raw materials are reaped from the Arctic. What impact does this have on the environment?

Create a poster or brochure for a new travel company which arranges visits to the Arctic or Antarctic. Use powerful images and text to tempt customers who want an extra-special trip!

Frozen Kingdoms
